Planned Projects

Table 1 presents planned projects for enhancing walking, biking, and rolling conditions in Rohnert Park. Tier 1 indicates high priority, Tier 2 medium priority, and Tier 3 low priority.

Table 1. Planned Infrastructure Improvements for Walking, Biking and Rolling

Project #	Project Location	Project Description	Priority
1	Hinebaugh Creek Trail	Fill gaps to complete Hinebaugh Creek Trail and connect to the SMART Trail at E Railroad Ave. Consider connection through Lancaster Drive.	Tier 1
7	Southwest Boulevard between Commerce Boulevard and Adrian Drive	Install Class IV separated bike lane. To be installed by summer 2024.	Tier 1
8	Enterprise Drive between Commerce Boulevard and Seed Farm Drive	Install Class IV separated bike lane. Coordinate with Central Rohnert Park PDA Plan, which proposes Class II on one side and parking-protected Class IV or MUP on other side.	Tier 1
9	Hunter Drive between Commerce Boulevard and Enterprise Drive	Study the installation of Class II (bike lane), IIB (buffered bike lane), or IV (separated bike lane) facilities. Confirm Sonoma County Transit's use of Hunter Drive.	Tier 1
10	State Farm Drive between Commerce Boulevard and Enterprise Drive	Install Class IV separated bike lanes. Installation likely to require changing existing cross-section to convert one vehicle lane in each direction to space for the separated bike lanes.	Tier 1
23	Commerce Boulevard from Redwood Drive to Gold Course Drive	Improve existing Class I multi-use path	Tier 1
31	East-West Copeland Creek Trail Connection	Copeland Creek Trail connection over US 101. Rohnert Park is in PID phase with Caltrans (2024).	Tier 1
33	Country Club Drive from Golf Course Drive to Hinebaugh Creek Greenway	Install Class I multi-use path between Golf Course Drive and Hinebaugh Creek Greenway. Install pedestrian enhancements to include high-visibility striping, ADA directional curb ramps, and bulbouts where feasible.	Tier 1
55	Copeland Creek Trail (south side path) and Commerce Boulevard	Crossing improvement. Coordinate with Project 31 and 60. In near-term, provide wayfinding that encourages people to cross at Commerce Boulevard/Avram signalized intersection.	Tier 1

Project #	Project Location	Project Description	Priority
56	Redwood Drive from northern city limits to southern city limits	Implement Class IV separated bike lanes. Enhance existing Class II bike lanes by upgrading to Class IV bike lanes.	Tier 1
57	Golf Course Drive from SMART multi-use trail to Snyder Lane	Install Class I multiuse path along/parallel to Golf Course Drive. Implement in coordination with Project 41.	Tier 1
58	Path from Donna Court to SMART MUP, through golf course	Study feasibility a Class I multiuse path connection from Donna Court to SMART Trail multiuse path.	Tier 1
60	Commerce Boulevard from Rohnert Park Expressway to Copeland Creek	Install Class IV separated bike lanes on the west side of Commerce Boulevard.	Tier 1
61	Snyder Lane from East Cotati Ave to northern city limits	Install Class I multiuse path along east side of Snyder Lane.	Tier 1
62	Southwest Boulevard from Snyder Lane to SMART multi-use path	Install Class IV separated bike lanes.	Tier 1
63	Southwest Boulevard from Burton Avenue to SMART multi-use path	Implement Class IV separated bike lanes. Implement in coordination with Project 46, 47, 62, and 64.	Tier 1
65	Seed Farm Drive from Southwest Blvd to Enterprise Dr	Implement Class IV separated bike lanes.	Tier 1
66	Golf Course Drive between Hwy 101 Off-Ramp SB and Redwood Drive	Install Class IV separated bike lane. Requires lane reconfigurations at intersections and between intersections as described in Projects 38, 39, and 40.	Tier 1
67	Commerce Blvd between Utility Court and Golf Course Drive	Install Class IV, bidirectional separated bike lane on east side of Commerce Boulevard. Implement in coordination with Project 40.	Tier 1
69	Rohnert Park Expressway between western and eastern City Limits	Study feasibility for upgrading existing Class II bike lanes to Class IV separated bike lanes or a Class I multiuse path.	Tier 1
2	Myrtle Avenue between City limits and Lancaster Drive	Create low-stress Class III bicycle boulevard connection to Lancaster Drive.	Tier 2
3	Camino Colegio from E Cotati Avenue to Broadway Parkway	Enhance and extend Class IV separated bike lanes.	Tier 2
4	Adrian Drive from Arlen Drive to City limits	Install Class IIIB bike boulevard, implementing traffic calming measures to reduce the level of stress.	Tier 2
6	Beverly Drive from Bernice Avenue to City limits	Install Class IIIB bike boulevard, implementing traffic calming measures to reduce the level of stress.	Tier 2

Project #	Project Location	Project Description	Priority
14	Labath Avenue between Business Park Drive and Laguna Drive	Install Class IV separated bike lanes.	Tier 2
18	Eleanor Avenue between Country Club Drive and Snyder Lane	Install Class III bike route, study level of stress and consider upgrading to Class IIIB bike boulevard.	Tier 2
21	Bodway Parkway between Valley House Drive and E Railroad Avenue	Install Class IIB buffered bike lanes once road is constructed.	Tier 2
22	Evergreen Elementary School - Elizabeth Avenue from Country Club Drive to Elvera Street, Ellis Street, Elvera Street, an Emily Avenue between Ellen Street to Elvera Street	Create low-stress Class IIIB bicycle boulevard connections to and from Evergreen Elementary School, residential neighborhoods, and surrounding parks. Install RRFB at mid-block crossing. Include traffic calming elements such as speed cushions to slow speeds along the roadway.	Tier 2
24	Copeland Creek Trail and Sonoma County Water Agency Service Road	Install bridge to connect the Copeland Creek Trail and Sonoma County Water Agency Service Road.	Tier 2
26	E Cotati Avenue within City Limits	Install Class IIB buffered bike lanes between western city limit and Camino Colegio to connect to Class I path, and complete Class I gap along SW corner of SSU on the north side of the roadway. At Bodway Parkway stripe high-visibility crosswalks	Tier 2
29	Golf Course Drive and Hacienda Way	City is installing RRFB (2024)	Tier 2
32	Three Trail Connection	Formalize a connection over Rohnert Park Expressway to connect the Laguna de Santa Rosa Trail, along with a connection to the Copeland Creek Trail and Washoe Creek Trail	Tier 2
34	Country Club Drive from Hinebaugh Creek Greenway to Rohnert Park Expressway	Install Class II bike lanes between Hinebaugh Creek Greenway and Rohnert Park Expressway. Consider lowering posted speed limit to 25 mph. Implement in coordination with Project 44.	Tier 2
38	Redwood Drive and Golf Course Drive	Crossing improvements at signalized intersection to improve conditions for people walking and biking.	Tier 2
39	Hwy 101 SB Off-Ramp and Golf Course Drive	Crossing improvement at signalized intersection to improve conditions for people walking and biking.	Tier 2
40	Commerce Boulevard and Golf Course Drive	Crossing improvement at signalized intersection to improve conditions for people walking and biking. Implement in coordination with Project 67.	Tier 2

Project #	Project Location	Project Description	Priority
46	Seed Farm Drive and Southwest Boulevard	Crossing improvement at signalized intersection to improve walking and biking conditions.	Tier 2
64	Southwest Boulevard from Burton Avenue to Adrian Drive	Implement Class IV separated bike lanes. Implement in coordination with Project 47 and 63.	Tier 2
5	Santa Barbara Drive from Adrian Drive to Burton Avenue	Install Class IIIB bike boulevard, implementing traffic calming measures to reduce the level of stress. Add wayfinding to draw bicyclists from Adrian Drive to lower-stress Santa Barbara Drive.	Tier 3
13	Keiser Avenue and Snyder Lane	Install signal and crosswalk at Keiser Avenue/Snyder Lane intersection.	Tier 3
15	Business Park Drive between Labath Avenue and Redwood Drive	Install Class IV separated bike lanes.	Tier 3
16	Dowdell Avenue between Millbrae Avenue and Business Park Drive	Install Class IIB buffered bike lanes	Tier 3
17	Country Club Drive between Fairway Drive and Hudis Street	Create low-stress Class III bicycle boulevard connections between Fairway Drive and Hudis Street. Install pedestrian enhancements to include high-visibility striping, ADA directional curb ramps, and bulbouts where feasible.	Tier 3
19	Class I path between N Rohnert Park Trail and Fauna Avenue/Holly Avenue	Create connection between Fauna Avenue and Holly Avenue, and install Class I path connecting north to N Rohnert Park Trail.	Tier 3
20	Moura Lane between Snyder Lane and City Limits	Install Class I multi-use path.	Tier 3
25	Magnolia Avenue between Camino Colegio and Bodway Parkway	Create low-stress Class IIIB bicycle boulevard. At Mitchell Drive and Manchester Avenue, stripe high-visibility crosswalks, install bulbouts, and daylight intersections. Consider traffic calming elements such as speed humps to slow speeds along the roadway.	Tier 3
27	Liberty Avenue and Lindsay Avenue	Create low-stress Class IIIB bicycle boulevard along Liberty and Lindsay Avenue. Also see project 53 for crossing improvements at Liberty/Lindsay intersection.	Tier 3
28	Liman Way and Lancaster Drive Crosswalks	Install RRFBs accessing Ladybug Park and University Elementary School at La Fiesta. At the crosswalks, daylight the intersection and install bulbouts to reduce crossing distance (@Lancaster Dr and Liman Way).	Tier 3

Project #	Project Location	Project Description	Priority
35	Liman Way and Lancaster Drive Crosswalks	Install RRFBs accessing Ladybug Park and University Elementary School at La Fiesta. At the crosswalks, daylight the intersection and install bulbouts to reduce crossing distance (@Lady Bug Park).	Tier 3
36	Liman Way and Lancaster Drive Crosswalks	Install RRFBs accessing Ladybug Park and University Elementary School at La Fiesta. At the crosswalks, daylight the intersection and install bulbouts to reduce crossing distance (@La Fiesta Elementary School).	Tier 3
37	Camino Colegio and Magnolia Avenue	Improve the Camino Colegio and Magnolia Avenue intersection to include high-visibility crosswalks, bulbouts, ADA compliant crosswalks, and extended medians to serve as pedestrian refuge islands.	Tier 3
41	Golf Course Drive and SMART Multi-Use Trail and Roberts Lake Road	Crossing improvement at signalized intersection to improve walking and biking conditions. Implement in coordination with Project 57.	Tier 3
44	Country Club Drive and Racquet Club Circle	Crossing improvement at unsignalized intersection. Implement in coordination with Project 34.	Tier 3
45	Country Club Drive and Valley Village Mobile Home Park Entrance	Crossing improvement at unsignalized intersection to improve walking conditions.	Tier 3
47	Southwest Boulevard and Burton Avenue	Crossing improvement at unsignalized intersection to improve walking and biking conditions. Implement in coordination with Project 63 and 64.	Tier 3
50	Camino Colegio and Maple Drive	Crossing improvement at an unsignalized intersection to improve walking conditions. Coordinate improvements with Project 3.	Tier 3
51	Myrtle Avenue & Liman Way	Crossing improvement at unsignalized intersection to improve walking conditions.	Tier 3
52	Lords Manor Way and Lancaster Drive	Crossing improvement at unsignalized intersection to improve walking conditions.	Tier 3
53	Liberty Avenue and Lindsay Avenue	Crossing improvement at unsignalized intersection to improve walking conditions.	Tier 3
59	Bodway Parkway from East Cotati Avenue to Valley House Drive	Upgrade facility to a Class IIB buffered bike lane. Narrow marked vehicle lanes to 10 to 11 feet in width. Use additional space for wider and buffered Class IIB bike lanes.	Tier 3
68	Dowdell Avenue from Business Park Drive to Martin Avenue	Enhance existing Class II bike lanes to Class IIB buffered bike lanes by narrowing marked vehicle lanes to 10 to 11 feet wide and using the remaining space to mark a buffer adjacent to existing bike lanes.	Tier 3

Planned Projects

Table 1 presents planned projects for enhancing walking, biking, and rolling conditions in Sebastopol. Tier 1 indicates high priority, Tier 2 medium priority, and Tier 3 low priority.

Table 1. Planned Infrastructure Improvements for Walking, Biking and Rolling

Project #	Project Location	Project Description	Priority
1	Main Street/SR 116 between Keating Avenue and Petaluma Avenue between McKinley St and S Main Street	Planned "Sebastopol Main Street Planning and Redesign Project" corridor study. Study to include assessment of feasibility of adding low-stress facilities and/or traffic calming, turning one-way segments to two-way, low-stress routes through neighborhoods or off-street alignments. Other planned pedestrian safety modifications include HAWK signal at Petaluma Avenue/McKinley Street (Caltrans project) and RRFB at Petaluma Avenue/Weeks Way (new hotel project).	Tier 1
2	Sebastopol Ave (SR 12) and Bodega Ave between Barnes Ave (CVS driveway) and High St	Planned "Sebastopol Main Street Planning and Redesign Project" corridor study	Tier 1
3	McKinley Street between N Main & Petaluma	Improve pedestrian connection between Main Street and the Barlow. Improve driveway crossings, roadway crossings (e.g., consider RRFB at Weeks Way), and consider streetscape improvements that prioritize pedestrian traffic.	Tier 1
4	116 north of downtown - N Main / Healdsburg Avenue between City limits (Mill Station Road and access to West County Trail) to the north and Keating Avenue (downtown)	Corridor study to assess feasibility of adding low stress facilities (e.g., Class I, Class IV), traffic calming measures, or alternate low-stress route through parallel neighborhood streets. Consider additional signals spaced at regular intervals to enhance crossings and reduce travel speeds. Consider roundabout at Healdsburg Avenue / Covert Lane. Add bicycle detection at signals.	Tier 1
11	Huntley Street from Murphy Avenue to Florence Avenue	Class III Bicycle Boulevard	Tier 1
12	Dutton Avenue from Huntley Street to Bodega Avenue	Class III Bicycle Boulevard connection to traffic signal at Bodega Avenue.	Tier 1
16	Willow Street to Trail Connection from Willow Street/S Main Street to	Improve trail connection between Willow Street and Joe Rodota Trail. Delineate preferred bicycle route through existing	Tier 1

Project #	Project Location	Project Description	Priority
	Joe Rodota Trail Access on 116/Petaluma Avenue	parking lot (Class I) and improve crossings of S Main Street and Petaluma Avenue. Consider raised crossings, if feasible, to slow traffic on 116 and prioritize people walking and biking to/from trails. Improve connection between trail and bike lanes on 116 (e.g., S-curve) so that bicyclists do not need to make a 90 degree turn.	
17	Trail connection between SR-12/Morris Street through parking lot to Joe Rodota Trail	Improve connection between Morris St and Joe Rodota Trail connector (e.g., at existing marked crossing of SR-12). Add bicycle detection at signal.	Tier 1
18	Morris Street between SR-12/Sebastopol Avenue and Eddie Lane	Traffic calming to ensure low stress Class II facilities. New development dedicating sidewalks. Add crossing improvements at Morris/Laguna Parkway and Morris/McKinley to improve access to Barlow parking lot and future Americorps Trail.	Tier 1
19	Eddie Lane between Morris Street and High School Road	Traffic calming and improved crossing treatments at stadium where trail crosses and at Eddie Lane/High School Road intersection.	Tier 1
20	High School Road between Eddie Lane and Healdsburg Avenue	Traffic calming and low-stress bikeway improvements (e.g., buffered bike lanes or lower traffic speeds) to connect West County Trail, Analy High School, Healdsburg Avenue, and Eddie Lane. Modify N. Main Street/Analy Avenue crossing and school entrance to prioritize trail access.	Tier 1
21	Abbott Ave extension and trail connection between Abbott Avenue/Barnes Avenue and Joe Rodota Trail	Extend sidewalk and street on Abbott Ave and build a multiuse trail connection between Joe Rodota Trail, SR 12, and downtown. Design will need to accomodate trucks loading at Feed Store.	Tier 1
22	Tomodachi Park trail connection	Formalize connection from Joe Rodota Trail to Tomodachi Park.	Tier 1
23	Seasonal ped/bike undercrossing of SR-12 at Laguna de Santa Rosa (east of Sebastopol)	Build seasonal connection across SR 12 (north-south connection), and pedestrian connection between the eastern end of the SR 12 bridge sidewalk (after it has crossed the Laguna) and the trail in the Meadowlark Field section of the Laguna de Santa Rosa Trail.	Tier 1
24	Connection between Americorps Trails and Meadowlark Field across Laguna de Santa Rosa	Build connection between Americorps Trail and Meadowlark	Tier 1

Project #	Project Location	Project Description	Priority
29	Covert Ln at Zimpher Dr	Pedestrian crossing improvements, e.g., ADA ramps.	Tier 1
33	Laguna Park Way and Morris Street	Improve existing and install new pedestrian crossing across Laguna Park Way	Tier 1
39	N. Main Street/ Analy Avenue	Reconfigure N. Main Street/Analy Avenue intersection and improve crossings to better accommodate cyclists.	Tier 1
40	Covert Ln between Zimpher Dr and SR 116	Traffic calming that reconfigures/restripes roadway on Covert Ln between Zimpher Dr and SR 116 to address driver attention and vehicle path.	Tier 1
43	Bodega Ave from Valley View Drive to Ragle Road	Install Class I bike path	Tier 1
44	Bodega Ave from Ragle Road to Pleasant Hill Road	Install Class II bike lanes	Tier 1
45	Bodega Ave from Pleasant Hill Road to Nelson Way	Install Class II bike lanes (funding acquired)	Tier 1
46	SR-116 from South Main St/Petaluma Ave Couplet to city limits	Corridor Study	Tier 1
47	Florence Avenue from Huntley St to Wilton Ave	Install Class IIIb bike boulevard	Tier 1
48	Wilton Avenue from Florence Ave to Pitt Ave	Install Class IIIb bike boulevard	Tier 1
49	Wilton Avenue from Pitt Ave to North High St	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
50	High Street from Willow Street to Wilton Ave (northern intersection)	Upgrade existing Class III to Class IIIb bike boulevard. Extend north to northern intersection of Wilton Ave	Tier 1
51	Wilton Ave from High St to Main St	Install Class IIIb bike boulevard	Tier 1
52	Analy Ave and pathway from Main St to Sunset Ave	Install Class I bike path	Tier 1
53	Sunset Ave from Taft St to Johnson St	Install Class IIIb bike boulevard	Tier 1
54	Johnson St from Eddie Ln to Laguna Parkway	Install Class IIIb bike boulevard	Tier 1
56	Pleasant Hill Ave from Covert Ln to Bodega Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
57	Zimpher Dr from Covert Ln to Valentine Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
58	Danmar Dr from city limit to SR 116	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1

Project #	Project Location	Project Description	Priority
60	Murphy Ave from Valentine Ave to Washington Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
61	Norlee St from Bella Vista Dr to Covert Ln	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
62	Pitt Ave from Wilton Ave to Healdsburg Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
63	Valentine Ave from Ragle Rd to Murphy Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
64	Willow St from Jewell Ave to Main St	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
65	Burnett St from High St to Petaluma Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
67	Fellers Lane and Lillian Way from Litchfield Ave to SR-116	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
69	Jewell Ave from Bodega Ave to Meadowlark Dr	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
71	Murphy Ave from Healdsburg Ave to Valentine Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
74	Litchfield Ave from Hayden Ave to Fellers Ln	Upgrade existing Class III to Class IIIb bike boulevard	Tier 1
75	McKinley Ave from Morris St to Petaluma Ave	Install Class IIIb bike boulevard	Tier 1
5	Ragle Road between Covert Road and Bodega Avenue	Coordinate with County to implement new Class I pathway and improvements on Ragle Road.	Tier 2
8	Washington Avenue through Willard Libby Park from Pleasant Hill Avenue to unpaved section of Washington Avenue	Install multi-use trail using natural materials (e.g., decomposed granite) to formalize goat trail on southern edge of park. Trail should connect with marked crosswalk on north leg of Pleasant Hill/Washington all-way stop controlled intersection.	Tier 2
9	Washington Avenue between Willard Libby Park to Golden Ridge Avenue	Class III Bicycle Boulevard and pave section of unpaved roadway	Tier 2
10	Washington Avenue from Golden Ridge Avenue to Murphy	Class III Bicycle Boulevard	Tier 2
13	Jewell Avenue b/t Hayden and Willow	Pedestrian improvements, e.g., sidewalks (on west side), traffic calming. City has developed potential reconfigured intersection alternatives, which provide for enhanced pedestrian travel and crossings,	Tier 2

Project #	Project Location	Project Description	Priority
		on the east side of Jewell Avenue at Willow Street.	
14	Leland b/t Jewell and Robinson	Pedestrian improvements (tailored to neighborhood context) and/or traffic calming to improve pedestrian circulation	Tier 2
15	Robinson between Leland and Bodega Ave	Pedestrian improvements (tailored to neighborhood context) and/or traffic calming to improve pedestrian circulation	Tier 2
30	Litchfield Ave between Fircrest Ave and Gwendolyn Place	Sidewalk Gap Closure (extend to 80 ft south of Gwendolyn Place)	Tier 2
31	Washington Avenue (midblock) between Bodega Avenue & Huntley Street	Enhance pedestrian crossing and install ADA ramps adjacent to Park Side Elementary	Tier 2
32	Laguna Park Way and Johnson Street	Improve existing and install new pedestrian crossing across Laguna Park Way	Tier 2
35	Valentine Avenue (midblock) at tennis courts/park between Pleasant Hill and Zimpher	Pedestrian crossing improvements (e.g., ADA ramps, consider RRFB feasibility)	Tier 2
36	Johnson Street between Morris Street and Sunset Avenue	Fill sidewalk gaps (west side) and improve crossings at Sunset/Johnson	Tier 2
37	Eddie Lane/Morris Street/Johnson Street	New crossing to connect bicyclists from path on Eddie Lane to Class II bike lanes on Morris St. Reconfigure entry to Eddie Lane for bicyclists at Morris St-Johnson St.	Tier 2
38	Eddie Lane/N. Main Street	Add pavement markings to delineate trail entry at western end of Eddie Lane to improve driver awareness of cyclists and pedestrians and improve trail connection across from Analy entrance.	Tier 2
42	Bodega Ave from City Limits to Valley View Drive	Install Class IV separated bikeway	Tier 2
68	Hayden Ave from Jewell Ave to Litchfield Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 2
72	Washington Ave from Huntley St to Bodega Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 2
25	Lynch Road from SR-116/Gravenstein Hwy to city limits	Upgrade existing Class III Bicycle Route to Class III Bicycle Boulevard including traffic calming. Fill in sidewalk gaps.	Tier 3
34	Covert Ln at Norlee Street	Pedestrian crossing improvements (e.g., ADA ramps, pedestrian crossing signs, ladder crosswalk, sharks teeth markings, consider RRFB feasibility).	Tier 3

Project #	Project Location	Project Description	Priority
41	Fircrest Ave/Litchfield Ave	Pedestrian Crossing Upgrades	Tier 3
55	1st St from Woodland Court to Leland St	Install Class IIIb bike boulevard	Tier 3
59	McFarlane Ave from Lynch Rd to Woodland Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 3
66	Woodland Court/Woodland Ave from 1st St to McFarlane Ave	Upgrade existing Class III to Class IIIb bike boulevard	Tier 3

Draft Planned Projects

Table 1 presents planned projects for enhancing or sidewalks & crossings in Sonoma.

Table 2 presents planned projects for enhancing or adding bike facilities in Sonoma.

Tier 1 indicates high priority, Tier 2 medium priority, and Tier 3 low priority.

Table 1. Draft Planned Infrastructure Improvements for Sidewalks & Crossings

Project #	Project Location	Project Description	Priority
22	Studley St and 5th St W	Install bulbouts on 5th St W to decrease crossing distance	Tier 1
